Learning Style: On Demand

Technology: Microsoft

Difficulty: Advanced

Course Duration:

Practice Exam - AZ-303: Microsoft Azure Architect Technologies

About this Exam:

Microsoft Azure Architect Technologies practice test is designed to help candidates prepare for and pass the Microsoft Azure Architect Technologies exam.

This exam is aimed at Azure Solution Architects who want to validate their skills.

Skills Measured:

Successful candidates will have mastered the following concepts:

- Implement and monitor an Azure infrastructure
- Implement management and security solutions
- Implement solutions for apps
- Implement and manage data platforms

Who should take this Exam?

Candidates should have advanced experience and knowledge of IT operations, including networking, virtualization, identity, security, business continuity, disaster recovery, data platform, budgeting, and governance—this role should manage how decisions in each area affect an overall solution.

They should be able to advise stakeholders and translate business requirements into secure, scalable, and reliable cloud solutions.

Certifications:

This practice exam will prepare you for Microsoft Azure Architect Expert Certification. To get the Official Exam Voucher for this certification, please contact [Support](#).

Course Outline:
